Why making it with Patons makes it really worthwhile . . .

Every year Patons make up thousands and thousands of garments to ensure that each individual pattern is perfected in every size stated and **every Patons yarn specified**—of vital importance to the shape of your finished garment.

And once in shape—always in shape. No shrinking. No stretching. Patons promise it. With over 180 years of experience to draw on, the people at Patons don't pay lip service to quality, they work at it constantly. That's why making it with Patons makes it really worthwhile.

These are the Patons Yarns featured in this Book —

TOTEM

A favourite yarn for many years because it looks good, washes easily and knits up well. Patonised, it will never shrink.

Some colours are available in 50g balls (if using these, simply halve the quantities shown for 25g balls).

KATIE

New pure wool with a crochet twist and a soft, smooth "feel". In fun-loving colours, including viscose and shadow shades. Won't shrink, stretch or lose its shape.

BLUEBELL

A fine, pure new wool. Won't shrink or lose its shape. Mothproof. Wears beautifully.

Please note—

When purchasing yarn for a garment, you must be sure to specify either Imperial (ounces) or Metric (grammes) quantities. If your Knitting Book states ounces only, your Retailer will convert these to grammes where necessary. It will help if you take your book with you when purchasing yarn.

ZIPPERS

Nylon Zippers are more suitable for crocheted garments because of their flexibility. We recommend 'Lightning' Zippers for strength and reliability and for the large range of colours and sizes. Make sure the opening is long enough for the work to be very slightly eased into the zip, to prevent a bulging zip. The edges of the opening should be close to the teeth of the zip and not cover it as in dressmaking. Stitch the zip into position with small running stitches using Coats Super Sheen No. 40 and finish the edges by slip-stitching lightly to the garment.

WASHING YOUR HAND-KNITTED GARMENTS

BEFORE WASHING—Make any needed repairs. Remove any unwashable buttons or trimmings, close zips.

WASHING—Washing powders approved by the Australian Wool Board should be used for washing hand-knitted garments. Powders should be fully dissolved before immersing garment. Squeeze the garment gently in the suds; do not rub.

A heavy soil mark can be treated before washing the whole garment by damping the area and pressing in some powder with your fingers.

RINSING—Rinse garment thoroughly in warm (not cold) water, until the water is clear. Support your garment with both hands whenever you lift it to prevent stretching.

DRYING—After the last rinse, spin dry the garment or squeeze it between towels to remove excess water. Dry naturally on a flat surface out of direct sunlight. **Never hang a hand-knitted garment.**

PRESSING—Never press synthetics. Wool garments should be pressed with a warm iron and a slightly damp cloth.

Make 2 small pom-pons (see page 18.) Thread cord
through holes at neck, attach 1 pom-pon to each end.
Press seams.

TO MAKE A TWISTED CORD

Method requires two people. Take as many strands
of yarn as required, approximately three times the
length required for the finished cord. Knot each end
and slip a pencil between strands. Each person holds
yarn just below pencil with one hand and twists pencil
clockwise with other hand, keeping yarn taut. When
yarn begins to kink, catch centre over door-knob or
back of chair. Bring pencils together for one person
to hold, while other grasps centre of yarn, sliding hand
down and releasing at short intervals, letting yarn twist.

MAKE UP

With a slightly damp cloth and warm iron, press lightly. Using back-stitch, sew up seam. Make a pom-pom (see below) using C.1 and attach to beret.

POM-PONS

To make a Pom-Pon, cut two circles of cardboard—the diameter depends on the size of the Pom-Pon to be made, and should be equal to the size of the finished Pom-Pon plus approximately $\frac{1}{2}$ " for trimming, plus the diameter of the centre hole,

e.g. For a Pom-Pon $1\frac{1}{2}$ " across, the circles would be $1\frac{1}{2}$ " plus $\frac{1}{2}$ " plus $\frac{1}{2}$ " for centre hole, equals $2\frac{1}{2}$ ". Cut a round hole in the centre, the size of the hole approximately a quarter of the finished Pom-Pon. Wind the yarn round and round the cardboard until the centre hole is completely filled up. Place the point of a pair of scissors between the two pieces of cardboard and cut round, keeping scissors between the two circles of cardboard all the time. Using a double strand of yarn, wrap round between the two circles of cardboard, knot firmly and take away cardboard—see diagram. Trim Pom-Pon.

HOW TO DO KNITTING STITCH

1st row

2nd row

1st and 2nd rows

KNITTING STITCH EMBROIDERY is particularly effective on plain knitting. Your garment can be quickly transformed by the addition of embroidered motifs to yoke or pockets, and children love to have an illustration from their favourite story book transferred to a cardigan or jumper.

Use the same thickness of yarn for embroidery as used in the garment. You could use a thicker yarn if necessary, but a thinner yarn would not give a good result.

Knitting Stitch is a stitch worked directly over each knitted stitch, with a contrasting colour to represent

the same knitted stitch, as before. Each square on the graph represents one stitch.

Insert needle from back of work, in the centre of any stitch and draw through. * Insert needle from right to left, underneath the two loops of the same stitch one row above, and draw through, then insert needle back into original place where needle was first inserted, draw underneath the two loops still working from right to left, and out into the centre of the next stitch (thus completing one knitting stitch), rep. from * to end of graph pattern.

All rows of pattern are worked from right to left, then from left to right, till the motif or pattern has been completed.

Variations in specified yarn quantities for garments

Knitters occasionally comment that the quantity of yarn recommended for a garment varies from the amount they actually use. One major reason for this is that no two people knit or crochet in exactly the same way.

When we specify a quantity of yarn for a particular garment, we are stating a figure that is the end result of having each individual design made by as many as six different knitters. The average quantity determined by this check knitting is regarded as the most satisfactory figure for that particular garment, knitted at the **correct tension*** to the measurements specified and in the actual yarn recommended. Naturally, if you decide to change the body or sleeve length **you must allow for adjustment to the quantity of yarn.**

***Correct tension** — see tension instruction for each garment.

SOME IMPORTANT HINTS

IMPORTANT — DYE LOTS!

Always buy enough of the same lot at the one time for a complete garment, as a variation between dye lots can occur.

Retain ball bands until the garment is completely knitted, and, in the event of an enquiry concerning the purchase, submit all ball bands.

SUCCESSFUL RESULTS DEPEND ON CORRECT TENSION!

Before you start your garment, take the yarn and hook specified in the instructions and make a chain 4 or 5 inches (10 to 13 cm) long. Work 1 square in whatever stitch is mentioned in the Tension paragraph of your instructions. With pins, mark out the number of stitches (or patterns) and rows quoted in the Tension. With an inch tape, measure the distance between the pins and compare with the tension given in the instructions. If your tension is too loose (i.e., if the piece measures more than the measurement given), try a size finer hook. If your tension is too tight (i.e. if the piece measures less than the measurement given), try a size larger hook. If more than one size of hook is recommended in the instructions and you have altered your hook to correct the tension, corresponding alterations must be made to hooks throughout the instructions.
